

TRUVENT® HIDDEN VENT SOFFIT

Engineered without compromise, TruVent Hidden Vent Soffit, with its patented design gives you a premium style with both solid and woodgrain options without sacrificing performance.

TruVent changed the industry when it came to hidden vent soffit, creating the crisp, clean design of the angled vent system and did it again with the woodgrain soffit that complements any home design.

Hidden Vent Soffit

AVAILABLE OPTIONS

Full Vent - HVS

MATERIAL AVAILABILITY

Aluminum

COATING

Q800 TuffTech™

THICKNESS

0.019"

WARRANTY

Lifetime Limited Warranty

PATENTS

U.S. Patents: 7,137,224

Canadian Patent: 2,496,496

NFA

11.0

INSTALLATION NOTES

For installation, (0.5") 1/2" Mitre Divider, F- and J-Channel are needed. Go to QualityEdge.com/Resources for detailed installation information.

BUILDING CODES AND BEST PRACTICES

"Proper ventilation [more in-take through soffit than exhaust through roof vents] can lower the attic temperature by as much as 50°F, which significantly reduces the home's heating and cooling demands. Ridge and soffit vents help keep the attic space well-ventilated, preventing a build-up of moisture and reducing heat in summer. These vents can prolong the life of the roof."

Typical one foot soffit overhangs should have at least an 11 NFA, so when used on both sides of the home will have a combined NFA of 22 to draw the air flow needed to work with a ridge vent system.
