Quality Edge Announces Acquisition of Genesee Building Products and Central Gutter Supply

FOR IMMEDIATE RELEASE

Quality Edge, a leading innovator in the building products industry, is thrilled to announce the acquisition of Genesee Building Products and Central Gutter Supply. The strategic alignment of these companies promises to elevate the service and quality standards in the industry.

With this acquisition, Quality Edge aims to bring innovation, an extended product mix, advanced marketing programs, and enhanced access to metal supplies to the Northeast region. This move is set to benefit customers by providing a broader range of high-quality products and exceptional service.

“We are excited to bring together the strengths of Genesee Building Products and Central Gutter Supply with our own expertise,” said Scott Rasmussen, President of Quality Edge.

“Ron, the owner of Genesee Building Products, has been a cornerstone in this market for 20 years. We are honored to carry on his legacy of service and quality. This acquisition allows us to continue his tradition while infusing new energy and resources into the business.”

The acquisition will be formally closed on July 14th. Quality Edge is confident that this integration will greatly benefit its customers by offering greater innovation, more robust product offerings, and improved service capabilities.

About Quality Edge

Quality Edge is renowned for its commitment to quality, innovation, and customer satisfaction in the building products industry. The Genesee acquisition expands Quality Edge’s already growing footprint with facilities in Walker, MI; Garden City, GA; and Arlington, TX. The company continues to set industry standards with its diverse range of products and dedication to excellence.

MISA, the parent company of Quality Edge, is a fully integrated network of metal processing and manufacturing facilities, along with sales and service offices strategically located in the U.S., Canada, and Mexico. Founded in 2001, MISA is recognized as an industry leader in all aspects of supply chain management and processed metals for automotive, construction, and other major industries.
